

The high quality, lightweight Hybrid bike is the default bike included in all our regular tours. With flat handlebars, lighter, and with slightly thinner tires than a mountain bike, and comfortable position for touring, it is perfectly suited to the rides and terrain on your trip.

Upon request, you can have a road bike or an electric bike for a supplement – contact us for details. Please note there are sections of our routes in the Loire that are on good condition hard-packed dirt or gravel paths, which may not be as comfortable for you on a road bike with skinnier tires.

**HYBRID****ROAD****E-BIKE**

All our hybrid bikes come equipped with:

Removable handle bar bag with clear map case, flat tire kit (with extra inner tube), pump, lock, rear rack and panniers (1 set per couple), odometer, water bottle holder and water bottle, bell and kickstand.

On request (free of charge):

- Helmet
- Toe cages for the pedals
- Second set of back panniers
